

# DATA FLOW

VISUALIZING INFORMATION  
IN GRAPHIC DESIGN

## 2

•

The eight comprehensive chapters in *Data Flow 2* expand the definition of contemporary information graphics. Wide-ranging examples introduce new techniques and forms of expression. In addition to the inspiring visuals, interviews with the *New York Times*'s Steve Duenes, Infosthetics's Andrew Vande Moere, Visualcomplexity's Manuel Lima, Art + Com's Joachim Sauter, and passionate cartographer Menno-Jan Kraak as well as text features by Johannes Schardt provide insight into the challenges of creating effective work.
